Looks like briefing for Dennis was changed...or maybe NOAA was just removed?

Also, work still happening to get our politicals in a single call. I'll forward the string as an FYI.

Christine,

Is the updated perspective on on-the-ground impacts complete yet?

Thanks,

Lynda

I used Lynda's edited version to make some additional edits to the briefing paper for Ken, specifically reworking Options 2. Please note that from R10's end, staff are still refining a more focused environmental consequences briefing piece for the RA's briefing. The purpose is to hone in on 1) current forestry conditions, 2) why current forestry conditions aren't sufficient, and 3) identify the minimum additional delta that will get state over the bar to approval.

All –

There are a number of moving pieces on the various management briefings right now and this is one of them. Following the briefing for Benita I have made some light edits to the briefing paper itself and added many comments to the options, which still need to be fully fleshed out.

Joelle, Christine and I spoke this morning.

# Ex. 5 - Deliberative

Meanwhile Region 10 is going to continue to flesh out the rationales and pro/cons of all the Option 2s. Region 10 will also be adding more of an on-the-ground perspective to the paper that gives clearer picture of the environmental costs of OR's current approach and benefits to be gained from improved forestry management.

Let me know if anything in the attached isn't clear.

Thanks,  
Lynda
